

January 3rd 2026:

Rewrite the framework to just focus 100% on the high moments!

1. Happy Family of Sampath Kumar in some small town of Northeast/Southeast!
2. Rejection and Forcing her to say NO! (#90 Days- I am giving your family a state) [Wife's Promise!]
3. Press-meet and Backslashes! (No Guaranteed schemes - ZERO)
4. Press-meet-2 : No Cash transactions could be documented. (3 Hours to execute this!) : 10 Minutes Virtual meet! (We are executing it before we go home!)
5. Govt offer to Buy him. (Firing the cash!)
6. The Backfire - The biggest shock & Planned Media attack! (Public Romance with someone else!)
7. The greatest plan from political thing is to kill him! (They hire Rocky sort of guy!)
8. Last #30 days - The Bureaucrats already have taken the things in hands!
9. Meeting Satya and diverting the media to plan for #3000! (The super duper plan!)
10. The Last Press meet & The great day! (HINDI vs KANNADA!)

Manifestation Mantra!

Pitch : Kichcha Sudeepa has given 70% of flops in career and If we add one more to that and make it 72/73% in the name of experiment by borrowing his precious time it doesn't affect any of his current status. So, the deal is simple. Let's assume we are discussing one more mediocre cinema for next 20 mins and no big deal.

Note: It doesn't matter if you have one more flop in a row! (

What's USP? - I can't really sell the Cinema Script! So, let's assume that it is crap as Its written by **me and I am not ashamed writing bad!** And I have no USP that can materialize this script? So, I am counting on your 30+ years of hard work and just enhance the best! So, what are we selling?

Commitment Time - Your 30 days! (Any one month!) Think back of cinemas that you would regret doing? Are there many? Let's assume this is one of your worst decisions made and you are doing this as a repeating pattern! (You will sleep 8 hours a day!) - We take your 8 hours on set and we finish dubbing also in that 30 days. This is our challenge! => Its literally the contract for $30 \times 8 = 240$ hours contract. ($240 \times 10^6 = 240,000,000$) => Around X CR is the remuneration.

For 20 mins

Result - This is going to be worst cinema and people hate the script, storyline, direction and every bit of cinema. Your fans hate this. But, you still want to do it? You know why? All the reviewers , fans etc everyone including you will hate this cinema!

We set the expectations extremely low - Only Poster, No Trailer, No Marketing and No Campaigns. We just announce the release date and release cinema on Thursday evening minimum slots and Friday.

Promise - You are doing this for only one reason, just to experiment your face value with the market. If you want to produce, we just want to put 10 Cr and finish this movie with minimal budget. (\$1M USD) for international cut (English, Hindi & Kannada)

Eventhough with all the great work the above statement might go right for us! But, reality is we all fantasize our bet against all the odds. We are no different.

In worst case let's assume all of our fantasies are real and fast judgements like above are wrong!

That this is manifested script for #369 days.

- * This is going to be blockbuster and breaks even on the first weekend!
- * Best script written that prioritizes actors skills and experience rather than cinematic universe where you play a small character.
- * Greatest Political Drama of recent years.
- * Never seen Kichcha Sudeep in this role and best from India.
- * We will win National awards and go places. We will have international cuts for the Tier 1 film festivals.
- * Zero Pain in Marketing. No Marketing of film. (So, we are almost making this cinema in the same cost of marketing)
- * You will redefine the scope of acting for strong characters that are built with great mindset not the graphics.
- * That last but very important, In a worst case scenario, it will be liked by 100 genuine people who really appreciate a piece of work! Those 100 people just know your talent and haven't appreciated your entertainment format so far! Those 1000 people are none other than our team! Yes we are 100+ team already to execute this.

December 29th 2025:

The Elevator Pitch :

1. Let's assume Soulmates is done for now. (If you have trust in my strengths!)
2. What else I have for you ? - The President's Rule (For Biggies!) and TataCheriyo!
3. What's in my mind? - Muula!
4. That's it! Nothing else and I would like to take my political career extremely important.

Date : Sep 28th 2025:

Amid of lot of permutations and combinations of non majority in state, three governments have been created from all #3 parties and central government holds to combine with central elections as part of one nation one election.

Governor should be chosen to the southern state as it has great instability and extremely difficult to prioritize the high growth state.

The initial rejection and what not? - There are unsolved issues!

Kishan alias Kichhaa is selected as eligible candidate. He gives the speech in Hindi about his plan of actions for next 180 days. So, He has three main agendas - Zero Free bees , 100% Insurance/free medical facilities and Privatization of schools. (Education isn't free, Govt. increases the fees to 100X to match the US institutes and Indian start up to help out to fill the gap!)

Learn Kannada in #30 days!

- Entire family trying really hard! (Dinner table talk!)
- Translation of few words - "Grand Maarungi(Thika Hoditeeni), Lowde Ke Baal(Shah.)"
- How he starts making sentences and really makes it happen later.
- English Vinglish Plot where insult is given back!
- Online tutor/ Class Teacher!
-

Transfer of loans - Every engineer gets laptop for loan and you have loan from the country to refill.

Refusing the Bribe Scene and the small fight with the gunnies!

- Here he praises and also makes fun of weather.

Saving the family Scene at the interval. (Poisoned Scene - Rajinikanth!)

The #1500 steps with 3000 pinkies of most dangerous criminals have been seeded in the steps. We need to kill every evil and raise in society. This is the indication to raise your standards in society.

Zero media coverage - This is not the moment to celebrate in public. This is the promise that we are making to make sure decisions are made for people in democracy.

By the love of few powerful people and for the love of all the citizens of this state. So, this is my reply to them. Media has been very proactive to run the show and entertain all of you. Today I chased things so fast that media couldn't catch up! They wanted to prove I created a mess. But, it was not the case.

Kishan has been shot on the chest during his last Kannada Speech on how he failed 100% failure as the target was so high!

- The reality of body double or something like that?
- How to execute this?
- Diverting media to complete controversy to be planned! (We know the algorithm and People just need content to enjoy at someone else.
- Advertising something that is absolute bullshit. We don't need to find them!
- We need to have controversy.
- Blocking phone numbers for 2 hours.
- All the stray dogs are kept inside some go down!
- A week later plan (Missing complaint + Irrelevant status!)

But, two things he successfully finished, learnt Kannada in 180+ days! Totally understand Kananda and say dialogue as good as any superstars.

Date: October 4th Saturday

1. India being largest democracy in the world is extremely fragile! (It's going by marketing narrative but, failing miserably at its core. Extremely bad situation is being created than never before.)

We need to present the greatest evidence for why we fail as a democracy sometimes to grow at rapid pace.

2. One nation one election is of course a great idea but, it needs a negotiation skills of Vallabai Patel to unite for nation by losing lot of things. - India runs crazy elections every alternate quarter! The things need to end and there are hell lot of measures!

Finally this is happening from next term, its going to be super crucial and also very disturbing.

3. Vishnu is appointed for the governor of Karnataka! They announce first and convince later!

Political Instability is at the core and they have to achieve that at any cost. Finally he was deployed on Nov 1st of this year. 9 months before the central elections.

4. The family goes through pain and it's just 9 months assignment so they just follow the path!

5. First press meet - I am not here for just 9 more months! Whatever has been promised will end from today - All the Bhagyas stop, Firing all the lecturers and shutting down the engineering colleges where lecturers are not qualified to teach! (So, colleges are surviving because of alumni and inherent talent n brand) - We sell the degrees for free!

Education is free but, experience would come with great price. So, we need to price the fees. So, resources are extremely important.

6. Get out of Karnataka!

This is Anti-Governor Press meet where all the parties are united to condemn the national interest at this moment.

7. The rapid growth comes from breaking the rules! Current Indian Kids can do it at any cost in any time frame!
 8. Paper degree vs Hands on degree! (Yes you need paper degree but, no value for that other than keeping the cert in your a**)
 9. All the engineering lectures are appointed at the software companies (We have to accept that they are good for nothing) - The brain drain!
 10. Zoho Model - All the companies should start hiring future talent with startup credits!
 11. Medical facilities are free for working 20 hours a week for government! ($52 * 20$ hours = 1,040 hours [1 Cr people man hours to build the nation]
- 75% of the people were working on one or the other thing. We just have people, we don't know what to do?

12. The initial bribery to appoint the best in class lecturers and bring in the top 1% from the small countries for medical college and medical tourism! (Hitting # 20 people in one go the raw fight)
- This is going to be the first action sequence in the cinema.

13. Everybody is insured in Karnataka! All the Bhagya is going against that!
14. The interval attack scene - How he plans to save himself and family in a car ! (It's a group accident) - I think there is a GPS and someone listening to us! (We are under wires)

This is going to be extremely dramatic and action sequence one as they start to make an unfair war and feel that they need someone who is thinking for nation as much as for himself.

The central govt starts hating him to the core when he makes commentary on the way protocols work here. If I need to return back the money that richest industrialists have given the politicians, I need to call for a war. So, I am trying to mitigate this at my best. So, this is my letter to president cc: prime minster, home minister.

Vishnu is asked to resign at the end of the cinema. Sir, this is insane. I changed only #3 rules that are non-financial things.
College Campuses offer Company Rents. (Greatest real estate.) [NO RENT FOR START-UPS.]

They need infrastructure and life style to impress the global brain drain. They want to create the world's best in class city in around 10,000 acres. We need to create that city at any cost.

15. Young police officer trying to meet him with one file! (All the litigation properties in Bangalore)
 - At least 300-500 Cr net worth people. (Around 75 billion)
 - So, he can give birth to 75 unicorns in 9 months!
 - The operation PINKY!! Inauguration at the top of temple!

- stray dogs!
- 3000 people! Dandaneethi!
- Media diversion!

16. The crazy Kannada speech during the climax.

- Gift from Non Kannadadiga.
- T Shirt of Kuvembpu!
- The State anthem from entire family The media news being absolutely waste! (The news is super chutiya!)

17. The Death Of governor!

- I wish he lived more and set a great example in real life!
- My entire effort here is to remind all of you that he is just the fictional character and for him to be alive and do whatever!
- He needs support from - leaders , family, everybody should be over boarded!

I have to kill him just to prove his character is fiction and there is no way this man can live in current scenario. So, just decided to assume that he exists only in cinema. But, if Cinema has to be looked like cinema. If he hasn't been shot. The next scene should have been this,....The Rolling credits starts.

18. Family sings a state anthem on stage wearing Kuvempu T Shirt - Jai Bharatha Jananiya!!

The Story is simple.

1. 15 mins - Sampath is approached - He rejects and they force him to take up the charge.

Show the greatness of India/Karnataka for Kannadigas about the great things happening in Bangalore and Karnataka. How its becoming best state in India.

Preparing for the role and leaving his entire life and coming back to take charge is immense change in lifestyle. He is super normal retired man.

2. 30 mins - Sampath takes a charge as governor - Entire state opposes (All people, bureaucrats and Parties.)

3. 60 mins - Sampath is loved by people and bureaucrats. And Parties hated him.

4. 90 mins - He is also hated by central government and that is when they open the previous case of his. (Lead to Prequel.)

5. 120 mins - He has to do what has to do! (Everybody is same. But, I am here to do what I am supposed to.)

6. The Promise is real - #3000 people in one shot! Taking all of them.

Swiggy Crashed when they gave option to order for poor! 17th October! (Swiggy to run the campaign. Anyone can order anything from listed restaurants.

The treatment starts here! (All the thoughts are written here!)

Scene 1 : Montages!

Treatment : This is like the real footage in media covered by media.

Come up with the great news headlines with greatest emotional amplification that Karnataka state govt is shut and president rule is imposed. And Dr. Sampath Kumar will be appointed as the Governor for state.

"Come up with the story for news when Prime Minister, Home Minister and President is trying to convince of the candidate for Governor rule as political instability has caused immense disturbances in state government and they have to achieve one nation one election by holding the president rule for next 9 months."

The complexity of the problem is equated to the problem that we had during the freedom moments - Sardar Vallabai Patel. We need Patel, we have Shah! Shah can't be Patel. We need Patel Back. Who would negotiate is a most complex problem in the history. So, they are forming a team of multi disciplinary excellence to tackle this problem. And there is no U Turn.

Breaking News Story: "Top Leadership's Midnight Plea: Convincing Dr. Sampath Kumar to Steer Karnataka Through the Storm for 'One Nation, One Election' Triumph"

New Delhi/Bengaluru, October 4, 2025 - Exclusive Inside Account from Rashtrapati Bhavan Sources

In a dimly lit chamber of Rashtrapati Bhavan, under the weight of a ticking clock and the ghosts of Karnataka's unraveling democracy, India's most powerful trio—Prime Minister Narendra Modi, Home Minister Amit Shah, and President Droupadi Murmu—gathered for an extraordinary, soul-stirring summit. It was past midnight, the air thick with the acrid scent of crisis: reports of street protests in Bengaluru, fractured alliances in the Karnataka Assembly, and a state teetering on the brink of total paralysis. The agenda? Not just survival, but salvation—for Karnataka, for India, and for the audacious dream of "One Nation, One Election."

At the heart of this clandestine huddle sat Dr. Sampath Kumar, the revered cardiologist-turned-statesman, a man whose steady hands had mended countless hearts in operating theaters and whose quiet wisdom had long whispered counsel in Delhi's corridors. His face, etched with the lines of quiet resolve, betrayed no hint of the emotional tempest raging within. He had been summoned not as a bystander, but as the reluctant architect of Karnataka's redemption: the proposed Governor under President's Rule.

"Dr. Sampath Kumar," the Prime Minister began, his voice a gravelly blend of paternal urgency and unyielding patriotism, leaning forward with eyes that had stared down monsoons of opposition. "Karnataka isn't just a state—it's the beating heart of our nation's diversity, the cradle of innovation and culture. But today, it's gasping for air. Factionalism has poisoned its veins; horse-trading has turned the Assembly into a battlefield of egos. Protests choke the streets, investments flee like frightened birds, and our people—farmers in Mandya, tech warriors in Bengaluru—wake up to headlines of despair, not dreams. We've lost 17 governments to such instability in the last decade alone. We cannot let this be Karnataka's elegy."

The room fell silent, save for the faint hum of the capital's sleepless night. Home Minister Shah, ever the strategist with a hawk's gaze, slid a dossier across the polished teak table—pages filled with timelines of Karnataka's spiraling chaos: the abrupt resignation of Chief Minister Siddaramaiah amid coalition implosions, viral videos of MLAs trading blows in the Vidhan Soudha, and economic forecasts predicting a 12% dip in FDI if the paralysis persisted. "This isn't politics, Doctor," Shah pressed, his tone laced with the raw edge of a father shielding his child from ruin. "It's a hemorrhage. We've invoked President's Rule not out of malice, but mercy—for nine crucial months. Time to cauterize the wounds, restore order, and align Karnataka's polls with the national rhythm. Imagine it: No more endless campaigns

draining our treasury, no more governance frozen in electoral fever. 'One Nation, One Election' isn't a slogan; it's the oxygen our democracy craves. But without a steady hand at the helm—yours—we risk the patient flatlining."

President Murmu, the embodiment of quiet dignity in a sari the color of Karnataka's verdant hills, reached out then, her voice a soothing balm amid the storm—a grandmother's plea wrapped in constitutional steel. "Sampath Kumar—ji," she said, using the intimate honorific that bridged their shared roots and her ascent from Jharkhand's fields to the highest office, "I know the weight of this ask. You've built hospitals that saved lives, advised on policies that lifted millions from poverty. But Karnataka calls you now as its healer-in-chief. The people there—they're not faceless voters; they're families shattered by broken promises, youth whose futures hang by a thread. President's Rule buys us time, yes, but it's your governorship that will breathe life back in. Nine months to broker peace among warring factions, to fast-track development stalled by discord, to show the world that India doesn't fracture—we fuse. For the voices in your blood, for the Kannadiga spirit in ours, step forward. Be the bridge to a united electoral dawn."

Dr. Sampath Kumar sat motionless, his fingers tracing the edge of a framed photo on the table: a young Siddaramaiah shaking hands with Modi at a long-forgotten unity rally. The emotional barrage hit like waves—Modi's visionary fire, Shah's tactical thunder, Murmu's heartfelt harmony. He thought of his late father, a freedom fighter who marched for a undivided India; of patients he'd lost to delays in a overburdened system; of Karnataka's monsoons, relentless yet renewing. Tears welled, unbidden, as the gravity sank in: Refusal meant anarchy's free rein; acceptance meant shouldering a state's soul.

As dawn's first light pierced the curtains, Dr. Sampath Kumar rose, his voice steady as a surgeon's scalpel. "For the people, not the power. For one nation, undivided. I accept." The room erupted in a chorus of relieved embraces—Modi clapping his shoulder with fraternal pride, Shah nodding like a general claiming victory, Murmu folding her hands in silent prayer. By morning, the gazette notification would thunder across headlines: President's Rule in Karnataka, effective immediately, with Dr. Sampath Kumar sworn in as Governor. Nine months of enforced stability—a pressure cooker for reforms, a runway for synchronized polls in 2026. Critics howl of "central overreach," but in the trio's eyes, it's resurrection. And in the hearts of millions, perhaps, the faint pulse of hope: That from this midnight plea, a stronger Karnataka—and a synchronized India—will emerge, unbroken.

Stay tuned for live updates as Dr. Sampath Kumar addresses the nation from Raj Bhavan.

Scene 2 : Dr Sampath Kumar serves in Village and He has openly told he is not aware of any of these and He confirms that it is a fake news. This puts everyone into a great confusion. The news again goes extremely bad as this makes it far more worse. People stop believing anything that is happening.

News 1 : Current govt is fooling us.

News 2: Sampath Kumar is not at all interested in Politics.

News 3: Sampath Kumar is also a suspended IPS officer in past.

News 4: Karnataka Coalition govt has appeared in supreme court to form a govt.

Sampath is called to avoid media completely and asked to take the private flight to Delhi immediately in next #2 hours.

Entire Karnataka Bandh and lot of chaos on the streets and they need to do it in one day! So, he is asked to go to Bangalore in # Bags. So, life should be as simple as it should be!

Scene 3: All are in Rashtrapathi Bhavan accepting this. And family drama about this. We need to deploy it in Karnataka as our Bottom line workers are extremely strong over there. None of the states have that. If at all any state in south could be touched its going to karnataka. People are nice, matured and way ahead of entire India. So, strategy is to fix Karnataka. It has to be president rule for next one year because of the failure in the elections. So, there is no U Turn.

Scene 4:

His family is asked to fly to Rashtrapathi Bhavan in private jet.

They all decide like a pro to echo Sampath's voice and everything goes wrong when home minister takes his wife and kids separately and request them to convince as this nation needs one more honest man's 90 days and we honor back whatever he has lost in his past. They give 1000% confidence that he is going to be okay and protected.

Sampath would be shocked to know they are convinced and asks Priya about what made her think we can do it.

She tells that they are going to close your long pending case! And Sampath tells, I will win it without their support.

Priya tells, I asked something that you always wanted and puts hands on his cheeks and tells you will be fine. You take charge, I know you can do it.

With one day time he just goes back home and meets his guru. As his plan to start spiritual Sadhana will be disturbed!

Couple of montages to show case what is their daily life looks like.

1. He is a doctor and has clinic.
2. His wife is a teacher focused on 100% quality education. Education is never free, it needs to have a great price.
3. Their kid is an entrepreneur sort of thinking to start some business being in village only. But, has very keen interest to study abroad.
4. Younger one is an artist. He just sings, etc etc.

One Nation; One Election!

Sampath Kumar taking time with family and saying yes for #90 Days. He is there to help with anything under the sun.

Scene 4A : We cut back to the point where he has lost everything and have to start from scratch after following the orders from the super master in his training time. Being an IPS Shadow officer. He is completely tricked to make a nonsense.

He risked his life. But, got nothing back. Yadhav and Multiple corrupt people tricked him.

Flashback to the scene where he has lost everything and talked to his fiancée who also is asked to marry someone else! Copy this scene from somewhere)

Crux : Who would have believed you? And he says mom if she were alive! She takes her photo and puts on her forehead! If I say I believe you will you believe me?

Do you believe? I mean they enter the coherence while talking about Satya!

Scene 5: The Sadhu sees his shodashavarga chart and also says he is born to change lot of things. But, he says something that his life is at risk if he has to takes this up with uttermost honesty, he might have to face death penalties. So, he gets ready for the death and starts this journey!

He says okay after only one thing! If something is possible for me to do, you should allow me to do it. Else I am not and You shouldn't ask me to resign unless you tell me. So, these three are the only conditions.

They start to Karnataka in 2 days packing everything! This is going to be scenes of the crazy! To Bangalore... (I need at least 15 minutes of journey here!)

About the clinic + life style + home + His pets + Life of #15 years isn't a joke. It's beyond what we could ever imagine.

I would like to compile the entire story backwards and land exactly on the day they met and made this journey successful.

Few days later;

Scene 6:

The First Press meet in Hindi and His humor turns really bad.

One of the press guy asks if he has learnt at least one word of Kannada.

He replied saying, till few minutes back, I thought its Kannad, One gentleman corrected me to not make that mistake. I don't want to get into to topics like Hindi to be their grand mother nor southely mother! I ll leave that to bureaucrats. I will focus on what could be done sort of answer.

I can fluently talk Hindi and English. If that doesn't suffice, I will try to learn Kananda at best.

But, he talks about three things will be addressed in upcoming press meet in 2 days.

Scene 7 :

Complete back slashes and media goes crazy! Everyone started with hashtag #GoBackSampath!

Sampath posts on twitter "I take my joke back; People of Karnataka are right about my ignorance and sentiment that these people have for their roots. But, I would constructively bear this at best!"

Few arrogant people sarcastically replied - No Need sir, keeping your silence in Kannada is also great!

This is when he understood people need sensation and topic to talk. Not the solution that I am proposing. Media is a diluting machine. You give any topic, it can dilute the essence and make it worst!

The First Twitter Post saying - "Kaliyuthiruve, Kshame Irali!"

His colleague tells him, Kannada isn't as easy as learn Kannada in #90 days thing.

He also hires kananda translator by paying him for personal tutoring.

Sampath is now very cautious to avoid all the controversy and talk only about the three important things in next press meet.

Scene 8: The second press meet where he is just watching the TV on what is being presented.

So, all the bureaucrats are supporting the initiatives.

This is extremely important thing! As he has announced everything on a notice board and it will be printed tomorrow in a news paper.

This the easiest way to make sure news paper sells. I wanted people do more hard work than listening to YouTubers.

Three Agendas for this second press meet -

No Free bees(First week!) - One second is enough! (People committed suicide!) - They committed suicide because of the withdrawal from addiction!Self reliance and Financially stable!

No Crime (Takes its own time!) - (75th Day!) - Yes we can make this in one single day! and 3rd one is cliché No Corruption! (Takes this with in 2 months!) - It's not 90 days task!

Scene 9:

Opposition from everywhere.

- Other Parties. [This directly affects their black money.] [Litigation fees, Paper-Market Value!]
- Media. [Thuglak, High Drama, Etc.]
- People about inconvenience for poor people.

- Get out of Karnataka Campaign against Governor! But, brings a great debate for the end of freebies.
- #60 committed suicide and there is a great pressure to call back on few things.
- Sampath stayed strong and He equates this to a pain of surgery over the cancer tumor in the system.
- He says his office and everyone let's get rid of media as its trying to work against purpose.

Scene 10:

Ex-CM trying to reach him and He is not interested to meet anyone.

- He isn't ready to meet anyone till he finishes what happens to state during his time?
- He prepares his 90 days - 8am to 6pm schedule and shares with everyone and literally he is ready to meet everyone who has a reason to meet him. All they have to do is why should his time is important to them? - Here is how he meets the real dude named "Deepu/Satyaraj aka Deepak/Satya".

[Need to insert the scene where we need to showcase his reaction for the bribe!]

[The fight scene where he burns the cash - 500Rs. Please don't tell the address of that So, I will put the dynamite to destroy it!]

Instead of just burning it, have him calculate the "Life Value" of that money (e.g., "This could have built 40 rural clinics"). The burning must be a cinematic visual of his "Tapas."

These are three major quick research teams to understand what's going on?

1. 50,000 Cr Free Guaranteed plans! (Improve the Hospitals and Health of individuals!)

1. We take this directly for the betterment of society.
2. 20% from the alcohol revenue. (People are shown the real high!) - Mamooli Tax Law!
 1. Phase I - First #30 days! (QJ)
 2. Phase II - First #60 days! (HJ)
 3. Phase III - The last #90 days! (Completely no alcohol and Yes for BJ)
3. How to compensate the 40% of the revenue?
 1. All White policy! (We just do crash the real estate)
 2. All White policy 2 ! (All the schools and educational institutes for middle classes!)
 1. Quality teachers / Pays
 2. Quality Infrastructure
 3. Quality of Vision!
 4. 100% tax free.

The other comedy bits to be integrated during the Bribe Scene!

- * Someone suggesting him to try acting. And him saying that he can start giving auditions.
- * The story about how hot Bangalore is? - Isn't this too hot. I meant its going to be hot if we have 3-4 quarters of whiskey!
- * It is going to be hot if we have the camp fire.
- * It's going to be hot if we - Sir Mood mein hoon!

Scene 11: Gaining the trust in this order - Colleagues, Businessmen and People at last. Colleagues - How to impress them? - The personal connection on their families and all of them. How do we plan to start personal connections with everyone.?

Top #5 : Schools Admission!

1. Valley School Bangalore
2. Auro Mirra
3. Prakriya Bangalore.

Businessmen

People - Everyone needs the reward from the society for doing the right things. And we need to create the great job opportunities. We are in a phase to build the nation. We can't afford to have insane economic growth. Instead we need to be self sufficient.

The scene goes with Rapid Adopting Systems are needed.

Scene 12:

Gaining confidence from the Business People. (24 Hours to open the business and ease of business is reduced to 24 hours in Bangalore.)

Sign board real estate-

Real estate prices - All White Policy! (GST input for all the tax you pay!)

Open-Bid for Apartments/Buildings/Etc.

BDA for NRIs - This is premium layout for only NRIs who is interested to invest with valid plan to return. Extremely subsidized prices to pull the money back to India.

Scene 13: Vijaya Times to dedicate whole news paper for free ; 7 Cr copies on #90 days report. This is one of the greatest milestones of any politician in the history of India.

As a revenge for the success of this, they all get united to take a revenge on this guy! So, media is paid huge to make sure governor will be trolled like anything.

Scene 14: The planned attack on the entire family. This is planned action sequence where Sampath walks out of "Manada Maatu"! Where he has prepared for the Vachana from Basavanna is a surprise. (He has to quit the live in middle.)

"Kalabeda, Kolabeda, Husiya Nudiyalu Beda..."

Scene 15: The Second Media attack black mail vs Saving the family. How exactly he plans to manage the both.

His assistant was also tortured to death to take all the evidences. So, the sting operation has been made on them.

The scene where their CAR Romance also been captured by YouTuber.

Maid Room Tasks. (How exactly the plan was done to capture something of that sort.)

The Classic Interval Scene where he saves the family from DANGER!

Changes to the interval Bang:

Let video edit be sent to him while he is on Manada Maatu!

His Cell phone is compromised!

Anniversary Function!

So sweet of them!

The Video is made to showcase the following.

1. Money taken out from his car and he is corrupt.
2. Money is kept in his house by strangers.

If one of you become CM, you will have two enemies working against or for you based on benefits. But, I have three enemies working against me! So, I can't give same session to all #3 of you!

Post Interval Tasks :

No Media Presence + Panga with Media after they took his personal life.
Central Ministry apologizing for disturbing the family life.

Scene 16: All the trolls about Governor or Joker!

Deep shame about his libido. 5 hours in Car. Multiple sessions. Craziest shameful act.
Shaking Car as gift on his face.
DPs of shaking cars.
Sir speed bumps ke eye adjust hoagy hai.
We know why he doesn't work after #5.
We know your brand and taste!
Please share video inside the car if possible.
Tutu Anna tinnoka bogase neeru kudiyoke!! Ondu Caaru saaku Janasanke belesoke...
Libido trick!

Scene 16A : Everyone in office.

Addressing office staff - This is normal. But, no-one believed I had a great sense of humor. Now you all are calling me Joker! Either one of us must be hypocrite. This should give all of you to use your car for multipurpose.

Any questions :

Sir, Aren't you too tall for that car? Is that video real or AI?

Sir, I got one more question but, I need to ask it in private.

Everyone take a note and put it in bowl and you prepare the exam question paper.

The Personal Choice - Joke!

Scene 16B: Meeting Approval Signed off with one minute elevator pitch where Satya is holding the gun at him.

Sir, sorry I don't have a elevator pitch but, I need 30 minutes. We shouldn't meet or know talk about that.

I need only honest people in the team. I have #4 guys.

You need to visit my family and have dinner with your family.

- * His mother has been in illusion that they are preparing for the trip.
- * His sister is still in shock and gone to anxiety. (In fact she would have been happy if he has been untied and fought like a men! He was tied and and ,,,)
- * He equates him to a god who has come here to show the way! He always use to say about god would come to protect him.

Scene 16C : Thanking Priya for being at that moment when everyone were in illusion.

Scene 17: The Presentation by "Sathya!"

Extremely simple story where the plan is explained to #6 people in the room and no one knows that it is going to be 3000 people. We just tell its going to be #6 people in #6 hours and #500s of these meetings will happen in a span of #30 days!

This is one of the craziest operations in the history of India to be executed without making them into books.

Missing complaints will be rejected and we try to prove that they all have left the cities forever by donating all their properties to Government.

They are seeking a help or surrendering if govt wants to accept them. Govt accepts the request for few.

Date : October 19th 2025

The father killed in China war and Mother was lost in gang war and mass murder in the UP. So, the story goes back. At least I could have taken the military to save my mom at least. So, the story of him and that young boy isn't different. The story is exactly same but, he has something else in his plate.

Sampath Kumar's is grownup with single mother and she died in gang war in UP when she was one of the eye witness in crime. How he became doctor and cracked the UPSC exams and got suspended in one of the highly political influential case when he arrested the central ministers of nation and produced few of the crazy evidences. He was sent to shadows to make sure he will have life at least. And later went underground and pursued MD and became the doctor in one of the small towns and completely focused on the overall health of community and life. He has doctor wife and two kids and He has no interest to come back to public life with lot of flash lights. And his answer to will be NO for this role thinking of incompetence to the expectations.

Scene 18 : Operation EK BHASA! HINDI!

Hindi is announced as First Language for all the Karnataka Syllabus followed by Kannada and Sanskrit as third. They have made English as optional. Extremely insane media.

Second and Third are interchangeable but, Hindi is compulsory! There is maximum opposition.

My intention is not to make Hindi to be national language. But, have one language that entire India understands for the best. I would have made Sanskrit if the usage of it is justified.

Hindi Sign Board is compulsory.

Second Gen. North Indians in Bangalore.

Scene 19 : The Real execution in Just 6 Hours!

The deployment of 3000 reserve police from the state. As the media is completely diverted and no security needed as it's bandh that day from Kannada Sangha.

We wanted to make Kannada Sangha really happy after #3 hours of No Food dudes!

Scene 20: The Skandagiri Inauguration!

One pinky is brought to put on every steps to the hill.

Scene 21: Post execution - Dog's Brumstana Bhojana!

This is iconic scene where all the stray dogs are rescued to make all the meat from the shitty people.

We have sent the pinky's to their families.

All #3000 people's identity is thrown.

Scene 22: Central Govt feeling bad and good for the greatest instability he bought in the system. At the same time happy for what happened to people of Karanataka.

Scene 23: Media got fooled for week in worst mess and people being deployed in worst possible news trap!

The last press meet and his apologies on the last day!

At 10:00 am the planned news is out!

He bears the Front Page on News Paper! (Everything is in HINDI on every news Paper!)

Hindi is a NATIONAL language!

What message he wants to give here?

This is the worst thing!

The #100 copies of First Language Book! – Hindi!

All the media should come to his office to attack the governor office.

At 4:55 pm! Media declares the victory!

Kannada Media won the war against the bullshit!

Scene 24: Them packing the bags to go back and they go to Kuvempu Home as a weekend trip. Stay there and meet couple of people and come back!

He is giving the speech right after the resignation when the elections are announced! When he has packed all the bags and where is not much of a press.

Let him write his note sitting in his home.

Scene 25: The Great Kannada Speech!

This is going to be iconic. Not just Kannada speech he sings the State Anthem!

Scene 26: They are going to sing the State Anthem.

I don't know if I have to tell you prequel on what happened before their marriage or what assignment comes to him in next few years! I am confused. But, the entire effort of this story is to show - Power of Integrity/Honest can shake the Dynasties, Democracy and Win any war you call it.

Scene 27: The Last montages of them being in their hometown back to work and living that great life. Wonderful family.

Date : Jan 19th 2026

1. The Longline / Hook
2. The Synopsis / Character Archetype
 1. Doctor, Ex-IPS and Governor.
 2. The Family Man and Promises.
 3. High Integrity Human Being.
3. What's our USP? / The Power Pillars.
 1. Contemporary topics and deep research.
 2. Political Alignment.

 3. Leader by Charm to bounce back - Save Street Dogs!
 4. Playing #3 Roles in One - Ex-IPS(Angry), Family Doctor (Calm), Governor (The Leader) And Beyond all #3.
6. USP for contemporary
 1. PAN India - One Nation One Election.
 2. Intellectual Mass Film.
 3. Planning International Cut.

7. Grand Finale! (Media vs Secret Mission!)
 1. Last #30 Minutes is it's own thing.
8. Call to Action/ Collaboration.

In the wake of a historic constitutional shift toward **"One Nation, One Election,"** Sampath Kumar—a formidable ex-IPS officer who traded his service weapon for a stethoscope as an oncologist—is thrust into the eye of a political storm as the Governor of Karnataka. Appointed for a high-stakes **90-day tenure**, Sampath views the state's systemic decay not through the lens of a politician, but with the cold, diagnostic precision of a surgeon. He arrives with a radical "triage" plan to resuscitate the state, driven by three uncompromising agendas: **No Freebies, No Crimes, and No Corruption.** Treating populism like a malignant growth, he immediately freezes all "freebie" schemes to divert billions into long-term infrastructure, while utilizing his police background to launch a zero-tolerance offensive against the state's criminal underbelly. As the 90-day clock ticks toward the national election, Sampath's "prescriptions" ignite a firestorm among the political elite, turning the Raj Bhavan into a war room where he must decide if he is there to simply maintain order or to perform the terminal surgery necessary to save the state's future.

No Crimes - Digitize all the criminal records and police to take 100% action with full freedom to investigate anyone!

No Corruption - Phase I - No Black money accumulation in Land!

The Pitch Video!

1. Who is Ra Ja.?
2. Why Ra Ja needs Sudeepa?
 1. Who doesn't ?
 2. But, I just have something that Sudeepa might exited!
3. Two Synopsis!

Jan 26th 2026:

Passing the First-Anti-Corruption-Bill

Now State has mixed opinion about him and we have passed #15 days to #20 days of rule and with in next 10 days all this bureaucrat teams are working on something really important to compensate or make use of the money they saved from the free bees.

The Idea is selected, the idea is all about transparency and digital record for every transactions. No Cash transactions and there is Market Value adjustment to eradicate the black money accumulation in real estate.

The Policies were built by bureaucrats and presented on one fine Friday afternoon. And they have only 2-3 hours to execute this. So, there is a great weekend gift from governor to eradicate the black money adjustments and increase the revenue for govt in taxes will be master stroke.

70% of the people in the office opposes and few says we need to consult central. But, one question is asked by governor.

How much is impact compare to demonetization?

Less than 5% impact on normal people; but, 100% impact on Rich people.

Then, we need to help country. We have 120 minutes and I have to pick my kids at 5 pm. So, start it.

This is high octane scene where decision is made at crystal clear mindset that makes sampath the superhero of the state on 30th day.

Bribe Scene

Everyone rich with black money knew the pain now and All three Ex-CM arranges visits his home without intimating to talk in their language and thinking he is going too strict because he must be expecting huge in this #90 days.

Where Sampath comes out and says, I don't like uninvited guests at my home.

His wife takes the kids inside and Sampath asks them to decide a place and he will be there in 20 minutes. I am not comfortable at home.

They will be sitting in some private garden where it will be too cold and Sampath has come with regular costume.

So, the scene goes like this, they open a bag containing cash. Around 10 of those. And couple of Benami property papers. And offer the bribe.

But, Sampath Kumar takes a 500Rs * 100 Cut cash and starts asking the question about current India?

Do you know how much 90% of the people in India earn per day? And their yearly income? - Its this much and You know what's 5L per Annum corresponds to? I mean whatever I am holding right now?

Let's calculate everything how much you can get me? - Its what you could offer for my decision?
- Right.

I never knew the price of decision is this HIGH. So, I am going to prepare one more course on Unacademy how to get rich in single day !

All three are confused if he is really sarcastic or making any sense. But, he really feels cold and asks for the Whiskey!

All of them think their intuition is right and they thought he is super strict.

But, finally he burns the money with whiskey and sends them back with one sentence - "I see you like tumors; if citizens are convinced that you are; I would chop you into pieces and feed the street dogs Behanhood".

Thika Muchkond Idre sari, Nahi tho mein aisa operation karunga that you belong in next #66 list from other end of spectrum!

The interval scene:

This scene shakes all the parties and news goes to the central and He gets a voice note from PM and Home Minister that they are proud of his work!

But, the kind of back slashes from local is huge and also few people in center doesn't like this. So, everyone now are planning in private and unity to bring Sampath Kumar down. So, Sampath knows that they are going to hit him hard this time.

Sampath keeps leaders aware that he needs 200% safety on family and everything should be normal.

All the party knows that the kind of security that his home, team working on protecting the whole family is incredibly high. So, they decide to attack otherwise and hire the hackers to put the script to spy them. So, they wanted to take something out of them. But, they find nothing as they really don't speak anything at home about nation n things.

Its super funny as they come to know everyone trying to speak Kannada at home and everyone sucks at it. They even record few to ask their friends.

So, now they get the hint that they are planning to make out on their wedding annerversry and Kids have exams. So, they are planning to make sure of security as well and plan to do it in Small I20 Car. So, this becomes very hot topic to attack him personally.

Sampath convinces to study on the other room and Sampath tells that he has night meetings with few NRIs and Mom takes tablets and sleeps and she needs sound sleep to get rest.

He takes her out by putting some pillows and They go and make 2-3 hours in Car in different places in the city, with great sounds in some remote public place.

They are followed in bike and video captured every time they are throwing the condom.

When they wake up in the morning, the media has attacked them so hard and there are 2-3 girls who claim to be someone with governor.

So, this is the mid point of the Novel. So, explain the sequences in great deal and make sure He loses all the reputation in the society and How he bounces back is a question now.

Following Comedy Sequences on the Effect!

We need couple of comedy scenes to start the second half where the reading of book goes little light hearted how exactly the State enjoys the comedy and needs entertainment of someone making love in public.

So, Next Parties putting agenda no public romance in car and fine. And many more.

The family dining table conversation between adult kids also will be funny. Surrendering mobiles and giving them to the investigation team.

So, how does that help for next #45 days? It doesn't.

The whole office is laughing at him and him behaving that nothing has happened!

How he addresses everyone - He brings the feedback paper at everyones desk!

Priyadarshi releases her video that one in the Car is her and she has enjoyed every minute being inside car. I understand youth has different sense of humor that's okay. But, Character assassination is bad in main stream media!

Create 3-4 humorous scenes out the above content.

Few main stream media takes the allegations back and asks sorry and says; Never believe YouTubers. Sorry, we also got confused.

But, in background all the team is showing the progress on the previous decisions.

But, next decision is to bring little discipline in youth lifestyle, How exactly he brings “No Alcohol” in Karnataka as a sense of maturity. As people can take this or there is a great crowd to support.

All he is saying is “Get out of state if you want to drink!” But, this is extremely opposed by center for many reasons. (@gemini - find the reason why center would disagree.)

So, the next conflict is between the Governor and Center. The first kind of friction.

Feb 1st 2026

Chapter 13: The friction between State and Center!

Sampath feels there is great resistance from the central govt But, he wants to roll out in phases. And he first bans all the other foreign brands in Bangalore for now as it was a diluted decision. And he brings up a team to research and make a complete case study on increasing the collective consciousness in the society by completely removing the alcohol dependent state.

Idea is to make sure, we don't penalize the citizen by becoming customers of wine shop, later customers of doctors and later they become debt to the nation.

His intention was clear, 1.4 Billion people is 1.4 billion minds and mindsets. Every single mind counts; you never know who is Einstein and who is Laden. All we need to make sure is mind takes the shape of country's vision. For that I need to make this state Sober.

With the above context come up with the debate between Sampath and Central Minister to show how bad its going to be for economy and threat to business tycoons if we ban the alcohol.

Chapter 14: Stay out of it! (This is the central order!)

The Final warning comes from the Central Govt to stop this and focus on something that really helps the city. Resonate with the real people, what's their problem and think you have #30 days you go and chill!

He was asked to take a weekend break and bounce back after that?

Sampath tells that its not fair based on the initial agreement about free to do few things;
Sampth gets pissed off and tells that I will make you happy and proud.

He asks the beauracrat in the call to send one good research document that is sensible that he could take?

He receives the file on “Indian national language”

Sampath looks at that and asks his driver going home what’s his major concern that he could address?

It turns really bad to hear about Bangalore dogs, how 2 of them attacked him and bite his ass.
And how he got injections and how it really affected his driving sadism. How he doesn’t care if the dog comes on his way. He enjoys hitting it.

Sampath goes and researches about the street stray dogs and gets disturbed! Write some scenes montages how he managed to totally engage in it and solve this issue. He teams up with #3 people and comes with #3 days thing!

Chapter 15: Save Steet Stray dogs!

Come up with the next chapter that proposes change from Governor office - Sampath Kumar saving dogs and becoming one more DOG! Lol

Sampath starts save street dogs campaign and starts a dog reserve park allocated for one of the nearest forest area. He plans to make sure feed street dog program where we plan to keep the dogs out of city to rescue them

How they are rescued has to be researched - How the forest will be named after any dog that comes in mythological character. All the dogs will be happy and also people will be happy to take care of them over weekends and also adopting them.

We need to create a scene by doing research on how many street dogs are there in Bangalore and current problems associated with them.

How exactly entire state trolls Sampath to death ; This is true Naayi Paadu!

The chapter should end in such a feel that Sampath is not taken serious and Media takes all the revenge! And Finally says RIP to Dictator n all.

Chapter 16: Attack from Jyesta!

Prepare the chapter where governor is relaxing and how someone attacks him in elevator to get some pitch deck done!

Sampath just has 3-4 more weeks to go and he is relaxing and thinks that he has become pawn again in their game. He just tells his family that we need to just end this trip in good note.

We just have to plan one last trip to Cooorg when they are going in elevator one of the guy with Mask attacks Governor and tells he needs 10 minutes to talk inside house.

Sampath gives a clue that we can't talk here and he has to safely leave immediately. Sampath just fights back and collects his gun and asks to come n meet at office as his house is compromised and spy activity is going on. (Jyesta trusts him meets immediate next day)

Chapter 17: The presentation! (Our House is compromised! Please get out!)

Come up with chapter about Jyesta's proposal to arrest #300 people in one day!

Jyesta is son of ex late State policeman, He has case prepared to execute the DANDA NEETHI to arrest everyone and send them to JAIL!

How he had prepared every single with great presentation and collected all the elements to collect the money back and give it back to government or some institutes as they have crazy money accumulated and also crimes they have done.

And his father was killed by one of the local goon for messing with farmer for money, his dad was suppose to arrest for illegal activity.

Chapter 18: Next day office presentation & his core team.

Jyesta brings his sister and narrates the story of pinky promise! How the dad who had done pinky promise came back dead after he had a private settlement meeting with farmers and underworld dons.

His sister has anxiety to core that she needs diaper to keep her pee intact when she hears any ambulance sound as the death of her dad has created such a bad experience!

Chapter 19: He has just 15 more days to go!

Develop the chapter based on the following!

He sends the file to central government that we would like to arrest all of them and they loved the idea but, sent back the list removing few of the people they wanted to save. He felt really bad for this!

There has been great research made by Jyesta and we need to honor him and his team, he has spent everything to collect the great evidence to reset the Indian Economy in one go! The concept is simple; if we arrest one others help them and also become alert. If we attack the whole army of goons and corrupt people in society there wouldn't be anyone to help them.

So, his theory matches exactly with Chanakya's theory of Danadaneethi!

Ultimately central says openly , if he takes any further decisions like this he will be suspended and they appoint the new governor for next 10 days!

And they send #75 people name who are from other parties that they feel like are tough competitors. They ask him to pursue with revised list!

Sampath says okay for them to make them happy in a very sarcastic way! And tries to convince Jyesta that at least 30-40% of this will happen!

Jyesta gets angry and tells where is your initial energy and all. He asks if we are doing it; we are doing it for all #200 or we are not.

Chapter 20: The last #10 Days!

The Resignation of Jyesta as he was not happy for what govt has planned and He says sorry to Sampath and walks out of office.

The message would be clear to all the #core team in office that, they have terribly failed.

The diluted execution plan is on the table and everyone are just doing for the media stunt.

Sampath shares his next #8 days plan to entire team and thanks everyone for the journey and he has nothing much and have one small party in office with everyone with best south Indian food that he can't miss when he goes back home.

Chapter 21: The last #8 days!

This scene shows complete failure of last project that they had taken in the plate.

Sampath gives a bad speech to everyone on his inability to do what is needed for state and how exactly he plans to put his resignation and one last thing he mentions that at least he has to take care of his post retirement career.

He sarcastically mentions that if everyone thinks about their careers we can't go anywhere and these are my last words!

If we can't do anything and happy thinking we are better than 1000 people out there. Someone has to stay in that state to keep us happy! So, our state of mind is to match the happiness at highest or best possible way!

The speech is recorded by their own team and asked sorry!

Chapter 22: The last #6 days!

The Media diversion and resignation on the same day! He executes the bill and resigns!

He makes Hindi as National Language and All Karnataka students who opt Hindi as First language would get 1000 Rs stipend from the central govt that they are joining the hands for the National Integration.

So, Hindi would become national language and all India uses Hindi as primary language and we dominate the world with the Hindi! 1.4 Billion people talking Hindi and economic theory how it creates the greatest opportunity for everyone and poor states.

Making engineering available in Hindi and bringing up nation on the front line. We can't ideally make united if the feelings are shared in common language! We need to identify and go through some friction!

So, The bill is passed and Central govt appreciates his move to the core.

But, that night he gets call from PM and Home minister asking apologies for few things. But, you can ask anything in future if he wants.

They want him to consider him for president's chair and what not?

He executes #200 people on the same night without putting them to jail. And take all their bodies and

Him resigning on the #87th Day, one day before the completion of his term!

He would kill all of them and take the bodies in 10 big food trucks and take them to the Bannerghatta Dog division and put all these 200 people as a food to the street dogs.

NO TECH CRIME!

Chapter 23: The last #3 days!

On the day he resigned; He just had last two days stay in Kuvempu place for two days!

He has private event in there! Where he just want to attend everything being normal Kannadiga! Or this might be in Coorg attending something!

Sampath is shot dead while singing “State Anthem!”

Chapter 24: The Goodbye! (How exactly the things turn from here!)

**A Letter goes to the Prime Minister office on the day when the election is announced and
It's an apology letter from Sampath Kumar this time along with thankful note!**

Sampath wanted to send a message to people that dictatorship should die and it never is a sustainable model. But, also we need some crazy dictators sometimes in between to make democracy strong!

He wanted to retire as a very amateur politician. But, who really came here for enjoying the powers. But, have no intentions to push the country forward. But, creating the false image to create the better society is lot satisfying than becoming someone's puppy and make a career here.
